

HG325AX XPON Dual-band AX1800 WiFi 6 ONT

AX1800 WiFi 6 | OFDMA Multi-User | One SSID for Dual Band

Realtek Chipset
WiFi 6 Solution

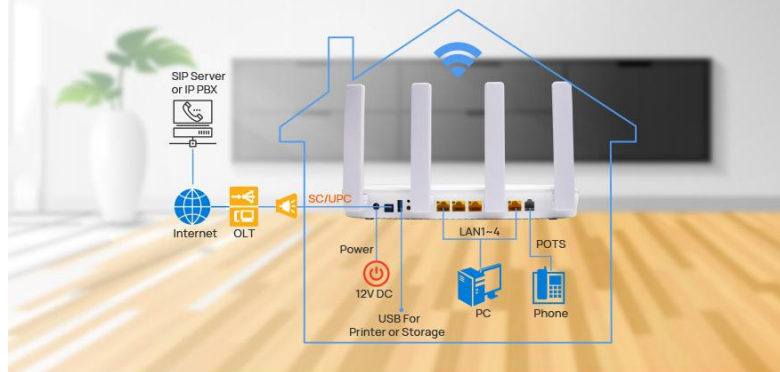

Speed Up to
1800Mbps

MU-MIMO
2x2 5GHz
2x2 2.4GHz

Built-in FEM on Chip
Stronger WiFi Signal

The Era of WiFi 6 ONT, FEM Enhanced Signal

1XPON+4GE+1POTS+1USB3.0+WiFi 6

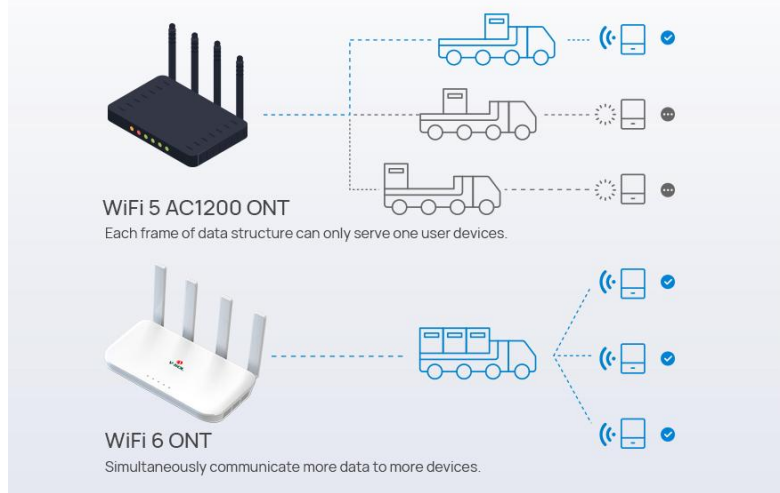

Dual-band WiFi 6 Speeds Up 52%

The AX1800 ONT rate was 52% higher than that of the previous generation AC1200 ONT.

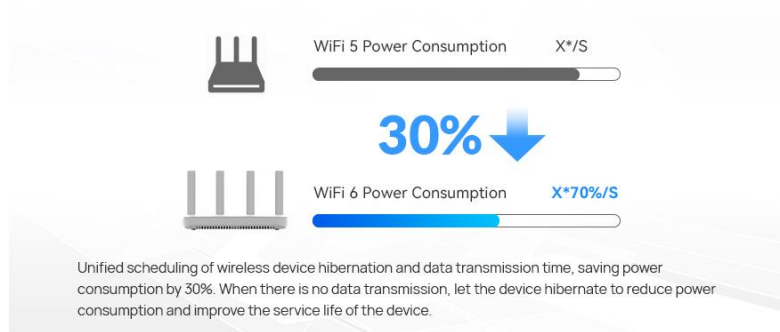

WiFi 6: OFDMA Technology Reduce Latency by 75%

Reduce equipment latency while leveraging resources

WiFi 6: Save 30% of Power Consumption

4-channel Built-in FEM, Stronger Through-wall Effect

Built-in high performance signal amplifier FEM (PA+LNA):
PA (Power Amplifier) effectively enhances the transmitting power and LNA (Low Noise Amplifier) improves the receiving sensitivity, making the router's signal transmission farther and more capable of penetrating walls.

Order Info:

Product Name	Product Description	Accessories
HG325AX	1XPON+4GE+1POTS+WiFi6	AC-DC power adaptor: DC 12V/1.5A
